

UNITY@PAGE QUIZ

Company name : PAGEGROUP

Activity sector : Autres activités de services

Company category : Grande Entreprise

Description of the action

The initiative Unity@Page shows that we enjoy working with multicultural business teams as we strongly believe that this supports our growth and success.

Context

In 2018 the Unity@Page Quiz was launched to raise awareness on the different cultures and religions of our employees at PageGroup Luxembourg. By using a playful tool, we reached a high number of participants and deepened the knowledge on cultural traditions and religious customs. All employees received an online link to the quiz with 11 questions to prove their knowledge.

Approach

The questions were defined by the Unity@Page committee which consists of employees from different levels and different offices.

Objectives

The quiz is a playful way to introduce cultures and religions to all employees once a year. It also provides a forum for discussion among colleagues and leads to an exchange of knowledge.

Impact

The winner of the quiz was announced at a [Diversity](#) Brunch where all employees brought local dishes from many different cultural cuisines.

« To do »

- Use questions from as many cultures and religions as possible to have the broadest possible overview.
- Employees can be included in the question finding process.

« Not to do »

- Questions not only concerning the world of religions.
- No pressure and obligation.
