

# SPEED MEETING ORGANISED BY LINKLATERS

**Company name :** LINKLATERS LLP

**Activity sector :** Autres

**Company category :** PME

## Description of the action

We have organised a speed meeting with all our internal committees ([Diversity](#), Innovation, Business Development, Community Investment, Events) in our courtyard on July 4th.

## Approach

Participants were organised in groups of maximum 8. Each ten minutes, they moved from one committee stand to the other. This was the opportunity for them to exchange with the hosts. Hosts were committee members who did play the game and accepted to represent their entire group on behalf of their colleagues.

## Objectives

The objective was to increase communication and to reinforce inclusion by mixing people together and give them an overview of what the firm they are working in is doing on a daily basis.

## Impact

Our people were happy to discover what the various groups are doing concretely, to identify people behind the committees. They were also force of suggestion as they came with a lot of ideas they suggested to the different committees. Some of them also decided to enrol in on or several committees.
