Contexte

The refugees come from extremely difficult backgrounds and offering them the opportunity to speak about their life experiences with people living in Luxembourg without being judged brings them a bit of comfort.

The objective of the volunteer in the Language Café is to animate a table of 3-4 refugees to give them the opportunity to practice a language (FR/ENG/LUX/GER).

Approche

The necessary information received from ASTI has been shared internally with our colleagues. So far, several colleagues have participated to 2 sessions on 19 June and 17 July. Two more sessions will be organized on 21 August and 18 September.

Impact

Through this experience, we can bring a bit of comfort to the refugees by listening to their life stories and in the same time to practice a language.
